Researching Aboriginal and Torres Strait Islander WW1 Soldiers from Queensland Communities

About this Guide
This guide is designed to provide support and advice for IKC Coordinators to research Aboriginal and Torres Strait Islander soldiers who have connections to their communities. It should be used in conjunction with the State Library Guide Resources for Researching Aboriginal and Torres Strait Islander Participation in War.

The Defence Act initially excluded Aboriginal and Torres Strait Islander people from enlisting – resulting in many Indigenous people enlisting under assumed ethnicity/cultural backgrounds. Some even changed their names, place of birth and other personal details to enlist! Fortunately, there are some historical sources and recent research activities that can help communities uncover their Indigenous soldiers.

Ideas for IKCs and Communities
IKC Coordinators are encouraged to research and celebrate the stories of soldiers from their communities and showcase the contributions of community members and their ancestors to the defence of Australia. Aboriginal and Torres Strait Islander involvement in Australia’s Defence Forces are untold stories; the challenge for you is to uncover these stories to share with others.

- Are there known stories or histories of people from your community going away to war?
- Do families have memorabilia and other artefacts that are still within the family, e.g. Service Records, Photos, Diaries, Medals, etc. Can these be copied and digitised for the IKC?
- Are there families who would like to share these stories in a display at the IKC; on the IKC or State Library Blogs or via a digital story?

Displays
Use space in your community organisation, IKC, Library, School, Noticeboard, etc.

- Create a community Wall of Honour to recognise the contribution of community members in the defence forces.
- Display photos/images relating to community contribution in wars
- Show any videos, digital stories, etc. relating to Aboriginal and Torres Strait Islander involvement in wars
Research
Encourage local community members to find out more about the local Aboriginal or Torres Strait Islander men and women who served in Australia’s Defence Forces.

- Find materials relating to your community or families connected to your community
- Use online sources and records available through the Australian War Memorial; National Archives of Australia; Trove/NLA Newspapers, etc.
- Identify existing community/family knowledge in your community
- Bring community members together to share their knowledge, stories and histories of war – document and record these sessions

Australian Light Horse
When WW1 broke out, many Aboriginal and Torres Strait Islander men were working on properties, particularly as stockmen. Due to their horsemanship, many Indigenous soldiers worked with Australian Light Horse Regiments, either as Troopers or Remount to look after the horses.

The 11th Light Horse Regiment is well known for the significant numbers of Aboriginal soldiers – the 20th Reinforcements were known as the “Queensland Black Watch” as all but 2 of the unit were Aboriginal!

- Are there any Light Horse soldiers from your community or region?
- Some may have been sent away from the community for work contracts on pastoral properties and may have enlisted at the nearest centre, e.g. Charleville, Charters Towers, etc.

Enlistment Vs Service
Many Indigenous men volunteered for WW1 – not all were allowed to enlist or serve. This was often at the discretion of the Enlistment Officers or Medical Staff who could deem that a volunteer was not suitable. Many Indigenous enlistments were assigned to a Depot until a final decision was made; during this time they undertook support or ancillary duties up to a period of 6 months. Some were returned to their communities with a note on their Attestation Form ‘discharged having been irregularly enlisted’.

Where to start
Attached is a list of known Aboriginal and Torres Strait Islander people who enlisted and/or served in WW1 who may have connections to your communities. This list may be a good starting point to researching involvement in WW1 by people with connections to your community.

Where known, I have included their Service Number as well as the Regimental Unit they were assigned to; this enables further research using the online service records at the Australian War Memorial or National Archives of Australia websites. In addition, where known, personal details including place of birth, place of enlistment, marriage, etc. are also noted.
List of known WW1 Aboriginal and Torres Strait Islander soldiers from Queensland Communities

The following is an alphabetical listing by geographical locations and identifies soldiers, both enlistments and volunteers, and the name of the town, community or locality they have connections. The majority of these soldiers were Aboriginal; however during WW2 there were significant numbers of Torres Strait Islanders, including those who served in the Torres Strait Light Infantry.

Note: this listing refers primarily to those soldiers with connections to Queensland Aboriginal Settlements, Aboriginal Stations, Aboriginal Communities as well as Torres Strait Islands. A comprehensive listing of all ‘known’ Queensland Aboriginal and Torres Strait Islander soldiers is currently being compiled. It is believed that approximately 300 Aboriginal and Torres Strait Islander soldiers from Queensland volunteered for WW1.

If you have further information on these soldiers or other Indigenous soldiers, please contact the State Library.

References and Further Reading

The above listing represents a compilation from several key sources and highlights the work of other researchers who have worked towards identifying Aboriginal and Torres Strait Islander men who volunteered for WW1. There has been ongoing research activity on Aboriginal and Torres Strait Islander participation in war by historians and researchers, including David Huggonson, Philippa Scarlett, Rod Pratt, Robert Hall, Garth O’Connell and others as well as initiatives under the auspices of the Australian War Memorial (AWM) or the Australian Institute of Aboriginal and Torres Strait Islander Studies (AIATSIS).

Recent projects under the Q ANZAC 100 Community Grants have uncovered local Aboriginal and Torres Strait Islander men who also volunteered or served in the First World War. Sources include items from the State Library Collections as well as external or online sources – these are listed below:

Peak Collecting Institutions
Researchers and community members are also encouraged to access collections and materials from other institutions that have an interest in Aboriginal and Torres Strait Islander people, their histories and lifestyles.

Australian War Memorial [www.awm.gov.au]
The Australian War Memorial has an extensive collection, including online resources to support research into Aboriginal and Torres Strait Islander involvement in WW1. If you know the person’s name, a good starting point is the AWM “search for a person' webpage:
www.awm.gov.au/people/roll-search/all/ which allows you to search indexes and nominal rolls for all wars that involved Australian defence forces.

Other useful webpages on their site include:

- Aboriginal and Torres Strait Islander peoples in the Defence Forces: www.awm.gov.au/encyclopedia/aborigines/
- Too Dark for the Light Horse Education Kit: www.awm.gov.au/education/schools/memorial-boxes/03-too-dark-for-the-light-horse/
The National Archives of Australia has an extensive online collection of digitised materials, including service records; the Record Search facility allows researchers, community members, etc. to narrow their search to specific Wars. If a person’s name is known, the surname details can be used as the search term – generally the full Service Record [Attestation Form; Medical Info; Service Duty, etc.] is accessible via a digitised copy. Service Records for Aboriginal and Torres Strait Islander people may also include a reference to their Aboriginality in their Medical Information – many volunteers were discharged with a note stating ‘of Aboriginal descent’ or ‘insufficient European parentage’.

- National Archives of Australia – Service Records:  

NAA also hosts the Discovering ANZACS website that explores a diverse selection of Government records about Australians and New Zealanders in WW1. The personal stories and soldier profiles include many Aboriginal and Torres Strait Islander soldiers. Website: http://discoveringanzacs.naa.gov.au/
